Some things are just better together ...

like your clients' major medical plan and AIG Accident Expense Plus®

The Right Plan — Right Now

A powerful trend is sweeping the health insurance market. More than ever before, employers and individuals are turning to high-deductible, high co-pay major medical policies as the best way to keep their insurance premiums affordable.

Unfortunately, high-deductible plans — by design — shift responsibility for a large portion of health care costs to your clients. American General Life Insurance Company (American General Life) was quick to recognize this challenge and has created a remarkable solution that's also a powerful opportunity for producers: *AIG Accident Expense Plus*®.

AIG Accident Expense Plus is affordable coverage that pays accident benefits regardless of other policies your clients may have — benefits that can help cover many expenses they would otherwise have to pay on their own, like deductibles, co-payments and additional charges for using out-of-network providers.

Two powerful benefits, one low-cost solution

Accidental Injury Insurance + Optional Critical Illness Insurance = **AIG Accident Expense Plus**

Dollar-for-dollar reimbursement for:

- Emergency Room
- Hospital
- Urgent Care Center
- Surgery
- Diagnostic Exams
- X-rays
- Physical Therapy

Lump sum benefit paid after initial diagnosis for these major critical illnesses:

- Invasive Cancer
- Heart Attack
- Stroke

An affordable supplement to major medical insurance

- Pays benefits regardless of other coverage
- Makes payments directly to your client
- An ideal supplement for high-deductible major medical plans

Accident Coverage — Without Strings

As a financial professional, you've probably seen clients disappointed by other plans that were supposed to supplement their major medical insurance coverage. Many times, that disappointment can be traced to "coordination" provisions — policy terms that limit benefits for claims covered by a primary insurance plan.

Coordination provisions not only reduce benefits, but they also add another level of complexity to the management of health care — as if paying for health care weren't complicated enough already.

Fortunately, *AIG Accident Expense Plus* is different. Because there are no coordination provisions, your clients will:

- Receive policy benefits regardless of other coverage they may have.
- Be able to reduce the amount of out-of-pocket expense, such as major medical deductibles and co-pays, incurred as the result of an accident.
- Appreciate owning a policy that's simple and straightforward

Jack, 16, rising basketball star

Out-of-network specialist is an affordable part of the team

Needed treatment from a specialist outside the network of their major medical plan

John and Samantha were proud parents — their son Jack was an outstanding student who was also becoming a highly-recruited basketball star. When he fractured his wrist in the playoffs, the family's doctor referred him to a specialist outside their major medical carrier's network.

Thanks to the family's *AIG Accident Expense Plus* policy, John and Samantha were promptly reimbursed for their out-of-network expenses and received additional benefits for the treatment and physical therapy. Jack made a full recovery and was back on the court the following season. His bank shot — and his parents' bank account — was as strong as ever.

Maria, 33, graphic designer

A broken leg won't stop this leap into self-employment

Leaving the corporate world to start her own graphic design business was a big step for Maria. One of her biggest concerns was medical insurance — could she find affordable coverage?

Maria purchased a major medical plan with a low premium — but a \$5,000 deductible. To help cover her high deductible and coinsurance costs, she supplemented the policy with an *AIG Accident Expense Plus* plan. She opted for the \$7,000 per calendar year accident benefit with a \$250 deductible.

Three months later, Maria fell, breaking her leg in two places. Her injury required an emergency room visit, surgery to reset the bone, three months in a cast and six weeks of physical therapy. The medical bills could have derailed her business plans, but because Maria had an *AIG Accident Expense Plus* policy, her only expense was the \$250 deductible. Broken leg or not, Maria kept marching steadily toward her goals.

AIG Accident Expense PlusSM Insurance A Case Study*

Janet Spurlock, recreational downhill skier

Problem: Knee injury resulted in \$11,000 of medical bills and three weeks lost compensation

Solution: AIG Accident Expense PlusSM combined with a Major Medical Health Savings Account (HSA) plan covered all medical expenses with money left over to help with living expenses while Janet could not work.

Last month Janet was skiing with some friends late in the day. A surprise winter storm caught them at the top of the mountain. Icy conditions and limited visibility caused Janet to lose control and tumble down the mountain. She had a twisted knee and needed assistance from the ski patrol getting to the bottom of the mountain.

On the ride home with an ice pack on her knee, Janet began thinking about her next steps. She would go to the doctor first thing in the morning since it was late and she was not in unbearable pain. She had purchased new medical coverage a few months ago – an individual Major Medical HSA plan and an AIG Accident Expense Plus insurance policy with no deductible and a \$10,000 calendar year maximum benefit. With relief, she remembered her agent explaining that the accident policy would help to cover the \$2,500 deductible of her major medical plan and she would most likely not incur any out-of-pocket medical costs due to the accident.

Janet called her doctor's office as soon as she got home to make an appointment for the next morning. When she referred to her AIG Accident Expense Plus policy, she confirmed that the policy required her to see a doctor within 72 hours of her injury. The next day Janet's doctor ordered an x-ray which confirmed that nothing was broken. He then referred her to an Orthopedic specialist – Dr. Black- to evaluate ligament damage.

Dr. Black ordered an MRI which indicated that she had medial collateral ligament damage to her knee. The doctor advised her that surgery would be necessary but that the internal swelling would have to be reduced and the stabilization muscles would need to be strengthened before surgery. He prescribed twelve physical therapy sessions.

Janet completed her physical therapy sessions in nine weeks and returned to Dr. Black who ordered another MRI and confirmed Janet was ready for surgery. It had been ten weeks since her accident.

After surgery, Janet continued with another three weeks of physical therapy. Her follow-up visit with Dr. Black revealed that she was healing nicely. Dr. Black asked Janet to come back for a final visit in a month. Since the accident, Janet accumulated three weeks of unpaid time-off from work.

Summary

Janet used \$2,500 of her \$10,000 AIG Accident Expense Plus reimbursement to pay her HSA Major Medical plan deductible. Since the remaining expenses were also covered 100% by her HSA Major Medical plan, she had \$7,500 left over to help pay living and other expenses while she was not able to work. Even though she had to endure the pain of an injury, she recovered with no out-of-pocket medical expenses or injury to her finances.
